

Electrical Boom Section Valve . Electrical shut off valve

Electrical shut off valve 36/AS24

- simple mechanical shut off valve for hoses up to $\varnothing 19$ mm
- specifically designed for our regulator systems
- individual choice of valve alignment
- robust and reliable design
- gear motor
- compatible with the altek modular system

Maximum pressure: 12 bar
 Inlet- \varnothing : 36 mm, tuned to fit the altek modular system
 Outlet- \varnothing : AS24
 Material: stainless steel: 1.4305, FPM and NBR seals, POM, PA

Voltage: 12 Volt
 Control current: 7 mA
 Switch time: 0,5 s - control gear

Recommended Fittings outlet	
Article-No.	Type
34230	Female hose tail AS24/ $\varnothing 15$
34229	Female hose tail AS24/ $\varnothing 17$
34227	Female hose tail AS24/ $\varnothing 20$
More Fittings: See AS plug-in fittings, AS24	
Recommended safety pins	
18545	Pin AS24

Article-No.	Type	Remarks control gear
47942	Electrical shut off valve 36/AS24	Control gear forward-turned
47943	Electrical shut off valve 36/AS24	Control gear backward-turned
82646	Spacer ring 36/AS24 to connect electrical shut off valves 36/AS24
